## PROFESSIONAL SUMMARY

Junior Software Engineer with hands-on experience building and deploying **12+ full-stack web applications** using **JavaScript, React, Next.js, Python, Flask, and MySQL**. Strong background in REST API development, UI/UX design, and performance optimization. Proven ability to collaborate in team environments, manage projects from concept to deployment, and deliver clean, maintainable code.

---

## TECHNICAL SKILLS

- **Programming Languages:** JavaScript (ES6+), Python
  - **Frontend Development:** React, Next.js, HTML5, CSS3
  - **Backend Development:** Flask, REST APIs, MySQL
  - **Testing:** Test-Driven Development (TDD), unit testing
  - **Tools & Platforms:** Git, GitHub, Figma, Vercel
  - **Concepts:** Full-stack development, API integration, performance optimization, responsive design, MVC architecture
- 

## PROJECT EXPERIENCE

### Software Engineering Projects – Moringa School & Personal Projects

2024 – 2025

- Developed **12+ full-stack web applications**, including dashboards, CRUD systems, and API-driven platforms
- Designed and implemented **RESTful APIs** supporting authentication, data validation, and role-based access control
- Improved frontend performance by **25–40%** through component optimization and efficient state management
- Integrated **5+ third-party APIs** for authentication, payments, and external data consumption
- Designed user interfaces in **Figma** and translated designs into responsive React components

- Collaborated in **team-based Agile projects** using GitHub for version control, pull requests, and code reviews
  - Debugged and resolved **50+ frontend and backend issues**, improving application stability and user experience
  - Deployed applications to production using **Vercel** and cloud-based databases
- 

## EDUCATION

**Software Engineering Certificate**  
Moringa School — Graduated **November 2025**

---

## CERTIFICATIONS

- AMI (Business) — 2025
  - 15 Professional Certifications
- 

## INTERESTS

- Full-stack application development
  - Open-source contributions
  - UI/UX design with Figma
  - Building scalable, problem-solving software solutions
- 

## REFEREES
